The billed revenue including capital grants amounted to R 536, 3 million, resulting in a favourable outcome of 7% when compared the YTD budget of R 2,226 billion. Capital grants are recognised in the Statement of Financial Performance monthly as soon as the condition of the grant has been met. Reasons for the variances are articulated in below Section 2.2.

The YTD actual Operating Expenditure amounted to R 1,391 billion and the YTD Budget amounts to R 2,131 billion, resulting in a negative variance of -35%. The reasons for the variance are articulated in below Section 2.3.

The Municipality's main goal is to strengthen the City's financial management, enhance revenue collection, and improve service delivery to our citizens.

Currently, the total debtor's book is standing at R 9, 981 billion of which 93% of the debt is owed in excess of 90 days. Of the total debt, R 106, 7 million is owed by government, R 789, 9 million by business and R 9,084 billion by households. CoM is urging government, businesses and households to meet their obligation to the municipality or make payment arrangements with the municipality.

The payment rate should be accelerated, as the financial stability of the municipality is dependent on it. This can only be achieved when the Credit Control and Debt Collection Policy is strictly, consistently and fairly applied to all customer groups.

City of Matlosana faces several revenue challenges that affect its ability to deliver services effectively. Some of the key challenges include:

- ✓ **Inaccurate Billing**
 - Inefficient or inaccurate billing due to incorrect meter readings and non-functional meters can lead to under-billing or over-billing of residents, which can cause disputes and further reduce collection rates. The municipality is in a process of the implementation of the Meter Reading System (MRS) module with the financial system (SOLAR) where the meter reading will be driven by Billing team and the assistance of unemployed youth.

- ✓ **Non-payment of services**
 - A significant challenge is the high rate of non-payment for municipal services such as water, electricity and property rates. Many residents struggle to pay their bills due to economic hardships, leading to shortfall in expected revenue.
- ✓ **Illegal connection and theft**
 - Illegal connections to water and electricity services as well as theft, lead to a significant losses in potential revenue. The Municipality faces a challenge in detecting and curbing these illegal activities.

In addressing some of the above challenges, the following revenue enhancement measures will be monitored and implemented on a monthly basis in the Budget Funding Plan:

- ✓ Incorporate all proclaimed site Establishment or developed properties in to the municipal billing system
- ✓ Reconcile Current Valuation and Billing system to identify discrepancies for accurate billing
- ✓ Investigate and identify government properties that where left out during separation of Department of Public works and Department of Agriculture that still owes Municipality
- ✓ Conduct Billing Audit called Operation Reabala to cleanse and verify all our meters within the entire Kosh
- ✓ Customer Billing Data cleansing and Integration with the property and GIS

The following measures have been put in place in terms of unnecessary expenditure and Credit control during the month of December 2024:

- ✓ Strict monitoring in terms of spending of non-essential items, which led to savings on other expenditure line items.
- ✓ Electrical department has been assisting with credit control from 1 April 2024.
- ✓ There were 50 disconnections carried out, and 13 reconnections of the previously disconnected properties during the month of December.
- ✓ The Electrical department is assisting in disconnections and reconnections; so far, they only manage to restrict just under 100 properties per day.
- ✓ New Service Providers were appointed 01 November 2024 to assist with delivery of notices, water restriction and unrestricting.
- ✓ Credit control actions are currently underway.

Progress in terms of Funding Plan

The revenue enhancement strategies as reflected in the Financial Plan has not yet been fully implemented and realised the anticipated revenue. The municipality must on a monthly basis, consider the status with regards to the implementation of the Funding Plan. Some of the revenue enhancement strategies that were not implemented and for the past 6 months will be adjusted during 2024/2025 Adjustment budget.

The detailed Progress report for the month ending 31 December 2024 is outlined on Annexure F.

Monthly Progress on Municipal Debt Relief application in terms of Circular 124

CoM is currently not fully complying with the conditions set out in Circular 124. The latest compliance status release is 76%. CoM is facing a challenge of maintaining the Eskom current account within 30 days of receiving the invoice due to financial constraints. The municipality is currently paying R40 to R50 million a month to ESKOM and is enforcing the revenue enhancement strategies and debt collection methods in order to increase the low collection rate. CoM is currently under Financial Recovery Plan.

Refer to Annexure D for Credit Control actions implemented during the month of December 2024

The detailed Debt Relief Monthly Monitoring progress report is outlined on Annexure A.

The variance can be attributed to the following:

- **Service charges – Waste Water Management (-19%):** Less revenue billed as the anticipated. It is imperative that the Billing section does a proper investigation to ensure that all properties are billed accurately for basic and additional sewer.
- **Sale of Goods and Rendering of services (26%):** Sale of Goods and Rendering of services is performing satisfactory with a positive variance.
- **Interest earned from receivables (33%) more:** Positive variance is due to the increase in debt over 90 days, which results in an increase interest charges. The enhancement of revenue and increasing of payment rate should be accelerated, as the financial stability of the municipality is dependent on them.
- **Rental of Fixed Assets (-18%):** Less revenue billed on Rental of Fixed Assets than initially planned.

The variance can be attributed to the following:

- **Bulk Purchases (-45%)**: Due to low collection, CoM is facing challenges to fully service its Eskom debts. There are revenue strategies in place to increase collection. CoM is currently under Financial Recovery Plan
- **Inventory consumed (51%)**: Inventory consumed is showing a positive variance as a result of monthly payments made to Midvaal Water Company.
- **Interest (-94%)**: The underspending is mainly on interest paid on overdue accounts, most of the journals for interest paid on overdue accounts are done at the end of the financial year.
- **Contracted services (-15%)**: Mainly on Security service, repair and maintenance of fleet, repair and maintenance of buildings and equipment and Asset Register administration. The outstanding invoices have not yet been captured on the system and have to be processed during the next coming months.
- **Operational cost (-34%)**: Less spending due to cash flow challenges. The Municipality is currently implementing strict measures by monitoring the spending on non-essential items, which led to savings on other expenditure line items.

TABLE: 18 MATERIAL VARIANCES

| NW403 City of Matlosana - Supporting Table SC1 Material variance explanations – M06 December 2024 | | | | | |
|--|---|-----------------|----------|---|---|
| Ref | Description | Variance | % | Reasons for material deviations | Remedial or corrective steps/remarks |
| 1 | Revenue By Source Service Charges: Waste Water | (16,588,092) | -19% | Less revenue billed as the anticipated increase on the waste water revenue has not materialised. | It is imperative that the Billing section does a proper investigation to ensure that all properties are billed accurately for basic and additional sewer. |
| | Sale of Goods and Rendering of services | 1,263,665 | 26% | Sale of Goods and Rendering of services is performing satisfactory with a positive variance of 32% | |
| | Interest earned from Receivables | 84,591,665 | 33% | Positive variance is due to the increase in debt over 90 days, which results in an increase interest charges. | The enhancement of revenue and increasing of payment rate should be accelerated, as the financial stability of the municipality is dependent on them. |
| | Interest from Current and Non-Current Assets | (94,299) | -4% | Most of the interest earned is realised at the end of financial year. | The municipality is improving on its cash and investment management and regularly invest funds that are not immediately needed for operations. The Municipality is also investing capital grants already received, whilst keeping the unspent portion in the investment account. The bulk of the interest earned is recognised at year-end. |
| | Rental from fixed assets | (772,044) | -16% | Less revenue billed on Rental of Fixed Assets than initially planned. | |

| 2 | Expenditure by Type | | | | |
|---------------------|----------------------------|------|---|---|--|
| Bulk Purchases | (206,438,097) | -45% | Due to low collection, CoM is facing challenges to fully service its Eskom debts. The municipality is currently paying R40 to R50 million a month to ESKOM. | There are revenue strategies in place to increase collection. CoM is currently under Financial Recovery Plan | |
| Inventory consumed | 110,692,248 | 51% | Inventory consumed is showing a positive variance as a result of monthly payments made to Midvaal Water Company. | | |
| Interest | (4,780,077) | -94% | The underspending is mainly on interest paid on overdue accounts. | Most of the journals for interest paid on overdue accounts are done at the end of the financial year. | |
| Contracted services | (26,949,142) | -21% | Mainly on Security service, repair and maintenance of fleet, repair and maintenance of buildings and equipment and Asset Register administration. | The outstanding invoices have not yet been captured on the system and have to be processed during the next coming months. | |
| Operational Cost | (41,463,013) | -34% | Less spending due to cash flow challenges | The Municipality is currently implementing strict measures in terms of monitoring of spending on non-essential items, which led to savings on other expenditure line items. | |
